Host College

M.V.Muthiah Government Arts College for Women was established in the year 1966 aimed at inspiring rural women aspirants to evolve and empower with knowledge and skills. It has been carved and moulded by able administrators with the support of dedicated faculties during the past 5 decades and emerged into 'A' grade college, catering to the aspirations of 2690 students pursuing quality education. It is affiliated under the umbrella of Mother Teresa Women's University and Re-Accredited with 'A' grade and a CGPA of 3.01 on a 4 point scale by NAAC in 2014.

The main motto of our college is to impart keen knowledge with academic excellence and impregnate with core ethical, cultural and moral values. Now it has been indoctrinating for 13 Undergraduate, 11 Postgraduate and 6 M.Phil degree programmes. The departments of Computer Science, Tamil, English, Mathematics and Geography have emerged as Research Departments.

Host Department

The Department of Zoology was initiated in the year 1974. The Department functions with competent and experienced faculty members. It has been upgraded as Postgraduate Department in the year 2018.

Interest is being focused on outreach Activities like Add on Programme and Internship Training in Various Zoological domain. Every year Environmental field visit and study tour are being organized to equip their practical knowledge. Laurels of University Rank Holders are being emerged as a credible achievement of our Department.

About the Conference

In the present scenario due to heavy anthropogenic activities and population explosion, the exploitation and utilization of Natural Resources have been increased unconditionally. On the other side the loading of wastes deteriorate the earth, thus making the environment highly polluted which leads to various health issues. In order to utilize waste resources, waste management and recycling processes have been enhanced in both rural and urban sectors. The present conference is mainly focused on exploring the application of various Biotechnological tools which ensure ecological equilibrium and environmental sustainability. Planning global organic farming and sustainable agriculture can truly bring an economic prosperity and viability in rural development. Moreover, dissemination of knowledge on the Potentials of Biotechnology will improve themselves to become a typical Rural Entrepreneur along with having the practice of utilizing wastes as useful energy sources.
