DEPARTMENT OF ZOOLOGY  
TOUR REPORT  
2018-2019

Tour indeed refreshes and rejuvenates the mind and also enables one to get an idea about the land topography, flora and fauna of various places. Since study tour is mandatory in the curriculum the department of Zoology organized a tour on 26<sup>th</sup> and 27<sup>th</sup> of February, 2019. We boarded at Dindigul and reached Pondicherry in the early morning on 26<sup>th</sup> Feb.

**Pondicherry:**

In Pondicherry 'Sri Aurobindo Ashram' is a famous worshiping place. The co-worker of Aurobindo was Mirra Alfassa, thenceforth known as 'The Mother' who's Samadhi has been decorated with very beautiful colored flowers. In the ashram itself different kinds of very attractive ornamental flowers have been maintained in an admirable way and the striking beauty of flower garden catches the eyes of all visitors with wonder. We purchased books from the book centre of Ashram. Students also went to the famous 'Manakula Vinayaga Temple' in Pondicherry.

The Beach in Pondicherry is very calm and beautiful but this area is always busy because the secretariat is situated on the beach road.

In the afternoon we visited 'Dr. Abdul Kalam Science Centre and Planetarium'. In the Science Centre different models are installed along with their working principles based on the fundamental laws of physics. In the Planetarium we wondered on watching the model of "Astounding universe" through which the genesis of Sun, Moon, Stars and Planets and their composition, interaction, and the method of installing the satellites in the space, receiving signals from the space everything was explained in a simple way. When we came out of the Planetarium we felt that as if we went into the space and observed everything in very close proximity.

**Mahabalipuram:**

In the evening we started our journey towards the famous historical place. All along the way of east coast road (ECR) we reached 'Mahabalipuram'. It mainly attracts the people by its wonderful sculptures, Shape and design of its pillars which were carved during pallavas dynasty. 'Five Ratha' is a wonderful sculpture and each Ratha was made up of single stone. Other attracting places are sea shore temple and monolithic sculptures.

**Crocodile Park:**

#### About the Seminar

The major objective of Dalit studies is to offer new perspectives for the study of India. First, to foreground dignity and humiliation as key ethical categories that have shaped political struggles and ideological agenda in India. Second, Dalit studies historicize the persistence of caste inequality and discrimination that have acquired new forms in a modern and democratic India. The key of Dalit studies is to recover histories of struggle for human dignity and caste discrimination by highlighting

intellectual and political activism. The rise of Dalit studies as discipline can be located in the transformational political events of the 1990's in India. It requires innovative approaches and combining anthropological, historical and literary fields.

Dalit history demonstrates that the colonial regime provided Dalit with mechanism to claim political and constitutional rights previously denied to them. A key trend in the field is to recover histories of leading Dalit activists or leaders in different regions of India and to explore the nature of activism that emerged there. A second prominent trend is to recognize the distinctive agenda of Dalit feminism. A third emerging trend has been to engage with Dalit literature in both prose and verse forms, as well as political and autobiographical writings to understand the cultural and social motivations that have shaped their political activities. The fourth prominent theme is to study Dalit groups religious and cultural formations.

#### Sub-theme:

- Dalit women writing
- Search for identity
- Psychological Sufferings
- Frustrated homemakers
- Domestic violence
- Gender issues
- Casteism problem
- Human Trauma
- Harassment of Dalit women
- Marginalization
